Finance Agenda Addendum -- November 18, 2026

Sudden Valley Community Service Award

Charter:
The Sudden Valley Community Service Award is intended to facilitate volunteer activities that improve our community. Funds up to $500.00 will be awarded for projects submitted by Sudden Valley home owners, neighborhoods, groups, clubs and organizations. Projects may be of any nature such as beautification projects, seminars with invited speakers or authors, events, and social activities. Construction projects requiring skilled labor should be avoided. Applications will be reviewed quarterly by a panel of board members and the General Manager for feasibility, impact, need, and organizational capacity. The panel will rank the applications and forward their recommendation to the board of directors for their consideration of an award. A portion of the award may be budgeted to fund staff and administration support as deemed appropriate.

Application submission and review:
Applications will be submitted through an online form available at suddenvalley.com, reviewed and qualified by administration. Qualified applications will be submitted to a panel of board members and the General Manager and ranked for feasibility, impact, need, and organizational capacity. The highest ranked application will be then be forwarded to the board of directors for consideration of an award.

Funds:
Funding will be appropriated from GL9211 Volunteer Support. The funds are already budgeted for 2027 so no additional appropriation is necessary.

Publication and Announcements:
Availability of funds will be published in the Sudden Valley Views, and electronically by email, and posted to the Sudden Valley web site announcements page. Awards will be announced by the board of directors at a regularly scheduled board meeting. Awardees will be notified by email.

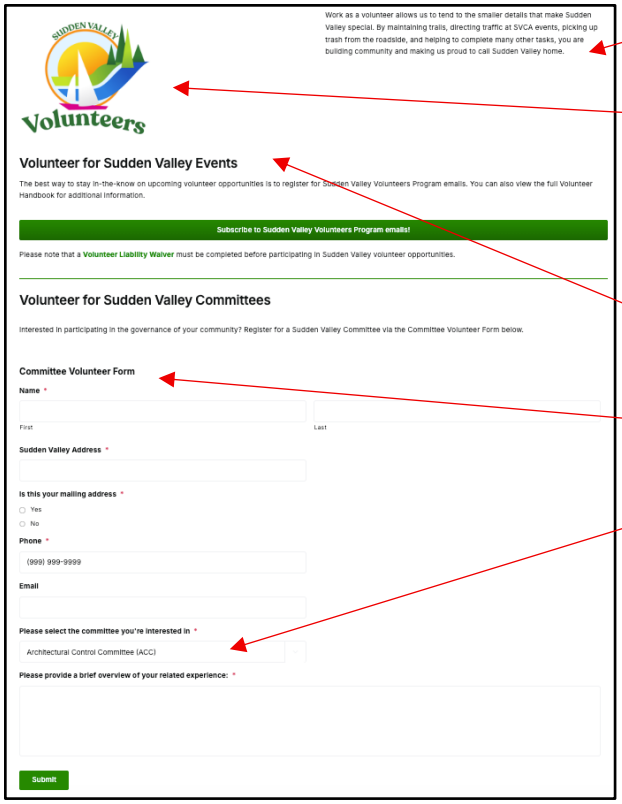
Award criteria:
Applications for Community Service Awards will be ranked by five panelists for feasibility, impact, need, and organizational capacity. The highest ranking project will be forwarded to the Board of Directors for consideration of funding, the mechanism of funding, administrative oversight, and timeline for completion. An example of a scoring matrix might appear as follows:

	Panelist 1	Panelist 2	Panelist 3	Panelist 4	Panelist 5	**TOTAL**
Project A	1	2	1	1	2	**7**
Project B	3	3	2	2	1	**11**
Project C	2	1	3	3	3	**12**

Each panelist will evaluate the applications independently and submit their scores to the General Manager for ranking

Web Form:
A web-based application form will be created by cloning and modifying the volunteer page at https://www.suddenvalley.com/resident-resources/volunteer/

Sudden Valley Community Service Award



Work as a volunteer allows us to tend to the smaller details that make Sudden Valley special. By maintaining trails, directing traffic at SVCA events, picking up trash from the roadside, and helping to complete many other tasks, you are building community and making us proud to call Sudden Valley home.

Volunteers

Volunteer for Sudden Valley Events

The best way to stay in-the-know on upcoming volunteer opportunities is to register for Sudden Valley Volunteers Program emails. You can also view the full Volunteer Handbook for additional information.

Subscribe to Sudden Valley Volunteers Program emails!

Please note that a Volunteer Liability Waiver must be completed before participating in Sudden Valley volunteer opportunities.

Volunteer for Sudden Valley Committees

Interested in participating in the governance of your community? Register for a Sudden Valley Committee via the Committee Volunteer Form below.

CAPITAL REQUEST MEMO

To: **Sudden Valley Community Association Board of Directors**

From: **Jo Anne Jensen, General Manager**

Date: **November 18th, 2026**

Subject: **Capital Request – Maintenance Truck**

Purpose
To request funding to replace SVCA maintenance truck OP-20 (2008 Dodge 4500).

Background
Maintenance truck OP-20 is on the capital reserve study to be replaced in 2026 with $146,357 allocated for purchasing a new vehicle. The 2027 budget revised this amount to $86,538. Maintenance staff inspected the truck to determine if replacement is warranted. The truck has relatively low miles but high engine idle hours. There is significant rust on the dump body, hoist, and frame. The factory installed emissions system was removed, reducing the value to a dealer. It has been determined that it is beneficial to replace the truck on schedule before maintenance costs increase.

Analysis
OP-20 is used daily for a variety of tasks within the maintenance department. Activities such as hauling/dumping material, towing a woodchipper (and chipping into the dump body), snowplowing/sanding, and general maintenance use. Replacing it with a truck of equivalent capabilities, or greater, best suits the needs of the maintenance department.

Equivalent trucks were evaluated from 3 manufacturers. Chevrolet informed they currently are not making a truck of this size. Ram is not recommended by SVCA's maintenance department at this time due to functionality of the new Ram truck previously purchased. We recommend going with Ford, and quotes have been requested from 3 vendors plus a build sheet from Ford. It is our intent to find a truck before year end to capitalize on yearend rebates anticipated, but if a truck can't be found one will be ordered. Of the 3 quotes SVCA requested, 2 quotes were received with trucks that are close to the build sheet. Truck quotes ranged from $69,545.75 to $73,205.38. A final price is not available until a purchase can be committed to. The quote from Kendal Ford notes $4,500.00 available in rebates, but this isn't reflected in the price above since we can't commit yet.

In addition, SVCA will need to purchase a dump bed for this truck. 3 quotes were received from Ferrotek, Fab-Tech, and Allied Body. Ferrotek has the competitive quote at $15,652.40. Ferrotek has installed other beds and plows for SVCA, and is well qualified. To be fully functional, Ferrotek is proposed to make a chipper box that will mount to the dump bed. This is an essential part for how this truck will be heavily utilized with towing the wood chipper.

Sudden Valley Community Association
360-734-6430
4 Clubhouse Circle Bellingham, WA 98229
www.suddenvalley.com

Summary of anticipated expenses:

- Ford F550 = $70,921 (using build sheet as that is approximately the middle of the 2 quotes received)
- Dump bed from Ferrotek = $15,652.40
- Chipper box from Ferrotek = $6,849.56
- SVCA miscellaneous accessories –decals, lights, toolboxes, etc. = $2,000.00
- Total $95,422.96

As a final price can't be committed to until funding is approved, and purchase ready, we recommend funding up to $97,000. The existing truck is valued at approximately $7,000, and once traded/sold/auctioned this will be credited to the truck purchase. In addition, any rebates available would be applied, and any left-over funds would be credited back to CRRRF.

Request

Request up to $97,000 for the purchase of a new maintenance truck to be paid from CRRRF.

Motion

Move that the SVCA Board of Directors approve the allocation of $97,000 from CRRRF for purchasing a new maintenance truck and authorize the Maintenance & Facilities Manager to work with the Finance Director on purchase of the new vehicle and sale of vehicle OP-20.

Approvals

Recommended: _____Not Recommended: _____Finance Committee

Signed: _____ Date: _____
Robert Livingston, Treasurer

Approved: _____ Not Approved: _____ SVCA Board of Directors

*** OFFER ***

Date: April 27, 2026 **Quote: B042726-1**

To: Sudden valley
Attention: Rafael Torres

Project: Rugby dump body

To whom it may concern;

Thank you for the opportunity to offer you a quotation on this project. Items included in this Offer are itemized and described in the section titled "Inclusions". Please review the items listed carefully and feel free to call me if you have any questions regarding this Offer.

INCLUSIONS:

1. Supply and install Rugby 11'-7" 3 yd. dump body / 12" sides / cab shield E-Z latch tail gate – SR4016B electric double acting hoist –sub frame mounting LED lighting, mud flaps powder coated black
2. Frame tail plate, under ride bumper, 2" receiver, 7 wire trailer plug, safety chain rings painted black.
3. Fab removable chip box to fit dump body. Approx., 11'-6" long x 8' wide x 4'-6" tall. Full sides, front, top. Open rear no tail gate/door. 14 GA. steel, 4-3" channel ribs-cover framing. Painted black

END OF INCLUSIONS

Exclusions: All materials and labor to furnish or fabricate any items not specifically included in the "Inclusions" section above.

Total Price for "Inclusion" items as listed above: **$14,360.00 – Dump body** + WSST = $15,652.40
$6,284.00 – Chip box + WSST = $6,849.56
Total = $22,501.96

Sales tax, if applicable, shall be added to above price if required by law.
All prices quoted are FOB Ferrotek unless otherwise noted.

This offer is valid for 30 days and subject to the payment terms attached:

Due to the current volatility in steel prices and in the market, this offer is valid, as noted above, for no more than 30 days. After 30 days the price is subject to revision to reflect more current market conditions.
