Long-Range Planning Committee — 2026 Year in Review

This year, the Long-Range Planning Committee worked on several important initiatives, with the **2026 Community Survey** being the largest undertaking. The survey provides valuable insight into members' priorities and will help guide Sudden Valley's future planning.

Other initiatives grew directly out of committee discussions. Members were offered one complimentary round of golf for two people, and work is currently underway to create a new member gathering space in the Clubhouse. This space will be used for committee meetings, senior gatherings, and other community activities.

Much of the committee's work this year focused on developing a **three-, five-, and ten-year plan** for Sudden Valley. While many of the ideas discussed involved shorter-term goals, several promising opportunities emerged, including developing volunteer programs, improving community pocket parks, and expanding community events while keeping costs as low as possible.

An important theme throughout these discussions was finding ways to bring members together. By creating more opportunities for neighbors to participate, connect, and talk in a relaxed social setting, we can strengthen community relationships and help bridge some of the differences that divide us.
