Still have some taskforce members who haven't completed Authority Forms. Mary Jo Case is off the taskforce.

Discussed the temporary opening of the gym in February and how this can impact the effort of getting pledges to operate for the year. David Herrera of our committee was contacted by Administration to help with the effort. He spoke to the taskforce about how this will work.

Will look at rates next meeting to determine if we have enough pledges to move forward.

Should look into having a member of the Communications Committee to assist us with our effort on ways to get our message out.

Budget has remained unchanged. Will look at some costs that can be shared once the taskforce begins to look at the pool and rec operations. Administration has provided a budget for the additional costs.

Still discussing Silver Sneakers and the membership that uses this program. Currently the temporary February opening is allowing them to use for free. Question if this is helping or hurting the pledge effort. Is this equitable to all users. Some classes aerobics and yoga are getting temporary free use. Without a functioning Health Club we are unable at this time to even begin the process of application or exploring what is needed to become certified in the program.

Meeting adjourned 8:15PM.
