

Sudden Valley Community Association

Pool Closure Information

The Sudden Valley Community Association Pool may be closed under the following conditions:

- **Air Temperature:** The current air temperature or reported "feels like" temperature is below **65°F**.
 - o Temperature data is sourced from the SVCA Tempest Weather Station:
<https://tempestwx.com/station/212739/>
- **Adverse Weather:** Rain, high winds, thunderstorms, lightning, or other weather conditions impair lifeguards' ability to safely monitor the pool.
- **Biohazard Incident:** A biohazard event has occurred in the pool requiring closure and remediation.
- **Chemical or Equipment Issue:** A pool chemical imbalance, equipment malfunction, or other water quality concern requires closure to maintain safe operating conditions.
